What is the problem?

What will Hyundai do?

- To ensure that your vehicle's trailer hitch wiring harness converter module does not experience heat damage, we are asking you to schedule an appointment as soon as possible to take your vehicle to your Hyundai dealer. The Hyundai dealer will replace the trailer hitch wiring harness with one containing a new converter module that has been designed to prevent overheating from this condition. This procedure will be performed at no charge to you. You should plan to leave your vehicle at your Hyundai dealer to have this service performed. Repair times will vary and depend on your dealer's appointment schedule.

What should you do?

- We urge you to call your Hyundai dealer to schedule an appointment to have this work performed as soon as possible.
