This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Ford Motor Company has decided that a defect which relates to motor vehicle safety exists in a Fused Jumper Harness that was installed in your vehicle when it was serviced. We apologize for this situation and want to assure you that, with your assistance, we will correct this condition. Our commitment, together with your dealer, is to provide you with the highest level of service and support.

What is the issue?

Our records indicated that your vehicle may have been repaired using a Fused Jumper Harness containing circuit polarity that is not compatible with your vehicle. As a result, if an electrical short should occur, the fuse may not offer the intended protection and the circuit may overheat, smoke, or burn, which could result in an underhood fire. The potential for a fire exists regardless of whether or not the engine is running.

What will Ford and your dealer do?

Ford Motor Company has authorized your dealer to remove the incorrect Fused Jumper Harness and install the proper Fused Jumper Harness. If the proper Fused Jumper Harness is not available, a new mating electrical switch will instead be installed. These repairs will be performed free of charge (parts and labor).

How long will it take?

The time needed for this repair is less than one-half day. However, due to service scheduling requirements, your dealer may need your vehicle for a longer period of time.

What are we asking you to do?

Please call your dealer without delay and request a service date for Recall 08S01. Provide the dealer with the Vehicle Identification Number (VIN) of your vehicle. The VIN is printed near your name at the beginning of this letter.

The vehicle owner is responsible for having this service action performed. Ford Motor Company reserves the right to deny coverage for any vehicle damage that may result from failure to have this recall performed on a timely basis. Therefore, please have this recall performed as soon as possible.

If you do not already have a servicing dealer, you can access <http://www.genuineservice.com> for dealer addresses, maps, and driving instructions.

Please note: Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

What if you no longer own this vehicle?

If you no longer own this vehicle, and have an address for the current owner, please forward this letter to the new owner.

You received this notice because government regulations require that notification be sent to the last known owner of record. Our records are based primarily on state registration and title data, which indicate that you are the current owner.

Can we assist you further?

If you have difficulties getting your vehicle repaired promptly and without charge, please contact your dealership's Service Manager for assistance.

RETAIL OWNERS: If you still have concerns, please contact the Ford Motor Company Customer Relationship Center at 1-866-436-7332 and one of our representatives will be happy to assist you. For the hearing impaired call 1-800-232-5952 (TDD). Office Hours are Monday through Friday: 8:00AM - 5:00PM (Your Local Time).
