Kaffenbarger Truck Equipment Co. has decided that a defect which relates to motor vehicle safety exists in certain MY 2006-2008 K-Tec International Class 8 truck tractors equipped with SAF-Holland Simplex fifth wheels. Kaffenbarger has been notified by one of our suppliers, SAF-Holland, that some of its Simplex Fifth Wheels manufactured may have a defect which affects the timing of its lock mechanism.

There is a possibility that the fifth wheel may fail to latch without the driver's knowledge. When this occurs, the driver could drive away and the trailer could become disengaged increasing the risk of a crash.
