VEHICLE SAFETY DEFECT SERVICE BULLETIN
Recall Campaign No. 08V098000
Monaco File R06030

Re: Safety Recall – LP Rubber Hose on Refrigerator

Dear Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Monaco Coach Corporation has decided that a defect which relates to motor vehicle safety exists in certain 2006-2007 Monaco Camelot and Holiday Rambler Scepter Class A motorhomes manufactured from August 4, 2005 through June 5, 2006.

According to our information, your unit identified on the enclosed form is affected. *Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.*

The rubber LP supply hose to the back of the refrigerator may have extra length of hose that was left inadvertently in the back of the refrigerator compartment. This only affects motorhomes with the refrigerator in the slide out. This extra hose should have been pulled back by the main house connection and secured. This extra hose potentially can be damaged by heat from the burner tube if the hose comes in contact with the burner flue. The consequence is if the hose is in contact with the burner flue for an extended period of time, the hose can melt causing an LP leak with the possibility of a fire. As a precautionary measure, Monaco Coach Corporation has elected to perform this voluntary safety recall campaign.

The remedy will include securing the hose or replacing the hose if and as needed after inspection. If you would like to perform the inspection to determine if your motorhome requires any repairs or is not affected, you may do so. This inspection will involve (1) opening the exterior refrigerator access cover, (2) visually inspecting the location and routing of the black LP rubber supply hose and (3) confirming that there is not an excess of hose creating a potential to be affected by the heat of the burner flue (see diagrams below). If the LP supply hose is a copper line, it is not affected. If you don't feel comfortable performing the inspection, shut off the supply of gas at the LPG tanks and contact your local Monaco Coach Corporation dealer to make an appointment. *If the LP supply hose is not in close proximity to the burner flue, please return the recall notification card stating as such with signature and date inspected.*

The recall repair will be performed at no cost to you. If you have already encountered the defect which is the subject of this letter, and had it corrected prior to receiving this letter, you may be eligible for reimbursement for your remedy costs.

You may contact your Monaco Coach Corporation dealer to arrange for a service appointment. Instructions for making this correction have been sent to your dealer and parts are readily available.

The labor time necessary to perform this recall campaign is approximately 0.75 hours. Please contact your dealer to schedule an appointment and delivery of the appropriate parts.

The vehicle owner is responsible for having this service action performed. Monaco Coach Corporation specifically excludes coverage of incidental damages that may result from failure to have this recall performed. Please have this recall performed as soon as possible.

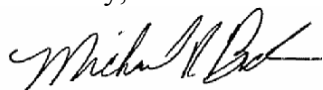

The enclosed Recall Notification Form identifies your motorhome and will serve as an authorization and claim form to have the correction made. Presentation of this form to your dealer will assist in making the necessary correction in the shortest possible time. *If you have sold or traded your vehicle, or for any reason cannot have this recall service performed, please let us know by completing the postage paid reply card and returning it to us promptly.*

Your Monaco Coach Corporation dealer is best equipped to provide service to ensure your motorhome is corrected as promptly as possible. If, however, you take your unit to your dealer on the agreed service date and the dealer does not remedy this condition on that date or within three (3) days, please call our toll free recall hotline at (800) 685-6545 or our toll free number for Customer Service at (877) 466-6226.

If, after contacting your dealer, and the recall assistance service line, you believe Monaco Coach Corporation has failed or has been unable to remedy the noncompliance without charge or there has been an unreasonable delay in securing the remedy, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue SE, Washington, DC 20590; or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY:1-800-424-9153); or go to <http://www.safercar.gov>.

We apologize for any inconvenience that this may cause you. However, we have taken this action in the interest of your safety and continued satisfaction with your Monaco Coach Corporation motorhome.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael R. Becker". The signature is fluid and cursive, with the first name "Michael" being the most prominent part.
