

March 2008

Dear General Motors Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that certain 2008 model year Cadillac STS and STS-V vehicles fail to conform to Federal Motor Vehicle Safety Standard 138, Tire Pressure Monitoring Systems (TPMS). As a result, GM is conducting a safety recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

## I M P O R T A N T

- Your vehicle is involved in recall 07340.
- Schedule an appointment with your GM dealer.
- This service will be performed for you at **no charge**.

### **Why is your vehicle being recalled?**

The Standard requires an indication to the driver of certain TPMS malfunctions. When the system detects a malfunction, the low tire warning light should flash for about one minute and then stay on for the remainder of the ignition cycle. A Driver Information Center message will also be displayed on the instrument panel. On your vehicle, these indications of a system malfunction do not work. Without these indications, you will not know that the TPMS is not working properly.

### **What will we do?**

Your GM dealer will reprogram the Tire Pressure Monitor System. This service will be performed for you at **no charge**. Because of service scheduling requirements, it is likely that your dealer will need your vehicle longer than the actual service correction time of approximately 25 minutes.

If your vehicle is within the New Vehicle Limited Warranty your dealer may provide you with shuttle service or some other form of courtesy transportation while your vehicle is at the dealership for this repair. Please refer to your Owner's Manual and your dealer for details on courtesy transportation.

### **What should you do?**

You should contact your GM dealer to arrange a service appointment as soon as possible. Bring the enclosed customer reply form with you when you visit your dealer. The form identifies the repairs required. If you no longer own this vehicle, please let us know by completing the form and mailing it back to us.

### **Do you have questions?**

If you have questions or concerns that your dealer is unable to resolve, please contact the appropriate Customer Assistance Center at the number listed below. More information about this recall can

be found at the Owner Center at MyGMLink,  
<http://www.gm.com/recall>

Division	Number	Text Telephones (TTY)
