Dear Mitsubishi Fuso Truck Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Mitsubishi Fuso Truck of America, Inc. has decided that a defect which relates to motor vehicle safety exists in the rear engine support bracket. On affected vehicles, the rear engine support bracket is composed of materials of insufficient strength. Normal vehicle vibrations may cause the bracket to crack. If the vehicle is continually operated in this condition, the bracket may break apart. In the worst case, the automatic transmission (A/T) could drop out of alignment with the drive train, which could result in a crash without warning.

Continued on the back.
