Recall Campaign No. 08V-254, R1200 R, R1200 GS, R1200 ST  
**Front brake lines**

Dear BMW Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

BMW AG has decided that a defect which relates to motor vehicle safety exists in certain 2008 BMW R1200 R, R1200 GS and R1200 GS Adventure motorcycles. Our records indicate that you are the owner of a potentially affected motorcycle.

We sincerely apologize for any inconvenience this may cause you.

**DESCRIPTION OF DEFECT**

The problem involves the front brake lines. Due to the shape of the front brake lines, it is possible that during riding and related vibration, the brake lines could be under strain. If the vibration is severe, a split could develop in the lines, and a leak could start to occur. If the leak became significant, and the level of brake fluid in the reservoir dropped significantly, the front brakes could fail. However, the rear brakes are available and are capable of slowing and stopping the motorcycle.

**You must have this problem corrected immediately. Failure to observe the following precautions, in conjunction with traffic and road conditions, and the rider's reactions, could increase the risk of a crash.**

**PRECAUTIONS FOR YOUR SAFETY**

- 2. Should you need BMW Motorcycle Roadside Assistance, they can be reached at 1-877-680-2176.**
