VEHICLE SAFETY DEFECT SERVICE BULLETIN
Recall Campaign No. 08V273000
Monaco File R08014

Re: Safety Recall – FED TAG with wrong tire pressure

Dear Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Monaco Coach Corporation has decided that certain vehicles fail to conform to the requirements of Federal Motor Vehicle Safety Standard No. 120, "Tire Selection and Rims". The affected vehicles are certain 2009 Alumascap and Alumascap Suite Fifth Wheels and Presidential Travel Trailers manufactured from March 17, 2008 through April 8, 2008.

According to our information, your unit identified on the enclosed form is affected. *Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.*

Monaco has become aware that when we changed from LT235/85R16 Load Range E tires to ST235/80R16 Load Range D tires on these affected units, the Federal Identification Label was printed with incorrect information. The recommended tire pressure at Gross Axle Weight Rating (GAWR) is listed as 80 PSI for the front and rear axles. The correct recommended tire pressure should be 65 PSI. This incorrect information could lead to over-inflated tires and could cause or contribute to premature tire failure; possibly resulting in a sudden blowout or other failure which could result in a loss of control of the unit. As a precautionary measure, Monaco Coach Corporation has elected to perform this voluntary safety recall campaign. Please note that any and all tire usage instruction and guidelines for loading and inflation pressures provided by the manufacturer of the tire must be followed despite the issuance of this recall.

The remedy will involve placing the enclosed corrected Federal Identification Label on the coach. The recall repair will be performed at no cost to you. If you choose to perform this recall yourself, you may peel the original Federal Identification Label off, (located on the wall to the left of the driver's seat), clean area with isopropyl alcohol and dry, then place the new label in the same location. Please return the postage paid recall notification return postcard included with this letter with section 2 filled out as performing the recall yourself with signature and date.

If you have already encountered the defect which is the subject of this letter, and had it corrected prior to receiving this letter, you may be eligible for reimbursement for your remedy costs.

You may contact your Monaco Coach Corporation dealer to arrange for a service appointment. Instructions for making this correction have been sent to your dealer and parts are readily available.

The labor time necessary to perform this recall campaign is approximately 0.1 hours. Please contact your dealer to schedule an appointment and delivery of the appropriate parts.

The vehicle owner is responsible for having this service action performed. Monaco Coach Corporation specifically excludes coverage of incidental damages that may result from failure to have this recall performed. Please have this recall performed as soon as possible.

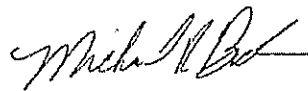

The enclosed Recall Notification Form identifies your vehicle and will serve as an authorization and claim form to have the correction made. Presentation of this form to your dealer will assist in making the necessary correction in the shortest possible time. If you have sold or traded your vehicle, or for any reason cannot have this recall service performed, please let us know by completing the postage paid reply card and returning it to us promptly.

Your Monaco Coach Corporation dealer is best equipped to provide service to ensure your vehicle is corrected as promptly as possible. If, however, you take your unit to your dealer on the agreed service date and the dealer does not remedy this condition on that date or within three (3) days, please call our toll free recall hotline at (800) 685-6545 or our toll free number for Customer Service at (877) 466-6226.

If, after contacting your dealer, and the recall assistance service line, you believe Monaco Coach Corporation has failed or has been unable to remedy the noncompliance without charge or there has been an unreasonable delay in securing the remedy, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue SE, Washington, DC 20590; or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY:1-800-424-9153); or go to <http://www.safercar.gov>.

We apologize for any inconvenience that this may cause you. However, we have taken this action in the interest of your safety and continued satisfaction with your Monaco Coach Corporation vehicle.

Sincerely,

Michael R. Becker
Customer Service Manager
Monaco Coach Corporation
