SAFETY RECALL NOTICE  
COMMERCIAL TRUCK DIVISION OF SUPREME CORPORATION  
NHTSA Reference No. 08V-282

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Supreme Corporation has determined certain Spartan Service and Cargo Bodies manufactured between January, 2006 to June, 2008 may present a potential safety defect.

This recall notice applies to a potential defect in the bonding of the roof skin to roof rail extrusion and roof rail extrusion to side wall.

Of the Spartan bodies manufactured by Supreme Corporation during the above determined time frame there were MS (cab-chassis) models and MI (cut-away chassis) models. According to our records one or more of these Spartan bodies was purchased by your company.

You will be receiving an instruction package, in the form of a certified envelope, which provides details of process and repair reimbursement instructions starting November 1<sup>st</sup>, 2008.

Supreme Corporation's first priority is the safety of people who use our products. We apologize for any inconvenience this recall may cause you or your company.

Respectfully and Sincerely.

Kevin Walker  
Codes & Standards Engineer  
Supreme Corporation
