

SAFETY RECALL H23 – REAR AXLE HUB NUTS

Dear: (Name)

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Chrysler has decided that a defect, which relates to motor vehicle safety, exists in some **2008 model year Dodge Charger, Magnum and Chrysler 300 vehicles.**

The problem is... The rear axle hub nuts on your vehicle (VIN: xxxxxxxxxxxxxxxxx) may loosen and allow the halfshaft to disengage from the wheel hub. This could cause the vehicle to lose power and result in a crash without warning.

What your dealer will do... Chrysler will repair your vehicle free of charge (parts and labor). To do this, your dealer will replace both rear wheel hub nuts. The work will take about ½ hour to complete. However, additional time may be necessary depending on service schedules.

What you must do to ensure your safety... Simply contact your dealer right away to schedule a service appointment. Ask the dealer to hold the parts for your vehicle or to order them before your appointment. **Remember to bring this letter with you to your dealer.**

If you need help... If you have questions or concerns which your dealer is unable to resolve, please contact Chrysler at 1-800-853-1403.
