SAFETY RECALL NOTICE

September 26, 2008

Dear Yamaha Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Yamaha Motor Corporation, U.S.A., has decided that a defect which relates to motor vehicle safety exists in certain 2007 XC50W ("Vino Classic") and XF50W ("C") scooters. Our records show that you own the affected scooter shown above.

The reason for this recall: In affected scooters, the connecting rod in the engine could crack or break because of improper heat treatment on the metal. If the connecting rod breaks, the engine would immediately stop running. If the engine stops while scooter is being ridden, there could be an accident resulting in injury or death.

What Yamaha and your dealer will do: To correct this defect, affected scooters must have the engine disassembled and the crankshaft assembly replaced with one that has a properly heat-treated connecting rod. **There will be no charge to you for this procedure.** Replacing the crankshaft takes a little over 3-1/2 hours to do, but your dealer may need to keep your scooter longer depending upon their schedule.

What you should do now: Please call your Yamaha dealer to make a service appointment to have this procedure performed. Remember to take this letter with you when you take in your scooter.

You should not ride your scooter until this modification is performed.

If you are unable to return to the Yamaha dealer who sold you the scooter, this service will be performed by any authorized Yamaha Scooter dealer. For the name of a dealer near you, call 1-800-88-YAMAHA or visit the Yamaha web site at: www.yamaha-motor.com.

Federal regulations require that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within 10 days.
