RE: Ricon Corporation Recall #07E-095 – Threshold Warning System on Wheelchair Lift

Dear Ms. Mays:

This notice is sent to you in accordance with the requirements of the National Highway Traffic and Motor Vehicle Safety Act.

Moroney Body Works, Inc. has decided that certain MY 2006 B180 (Freightliner MT55) bookmobile step vans equipped with Ricon Model S2005 wheelchair lifts fail to comply with the requirements of Federal Motor Vehicle Safety Standard No. 404, "Platform Lift Installations in Motor Vehicles." This decision was based on information provided by the Ricon Corporation. The threshold warning signal may not activate when a certain point on the threshold area is encroached.

Your bookmobile wheelchair lift is affected. For this reason we ask that you arrange for service to correct the condition without delay. The service and required parts as described in this letter will be provided free of charge. **Contact Ricon Corporation at 1-818-267-3000 or Moroney Body Works at 1-508-792-2878 to locate the nearest service center.**

To correct this condition, your nearest Ricon Dealer or service center will replace the Threshold Warning System metal covers and optical sensor mounting retainers. Ricon will provide a kit for field replacement at no charge.

Contact your Ricon Dealer or service center as soon as possible to schedule an appointment for the free service.

If Ricon fails or is unable to rework this noncompliance without charge and within a reasonable time please submit a written complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE, Washington, DC 20590; or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://222.safercar.gov>

Sincerely,

Sandy McGilvray
Office Manager
