Safety Recall #2009-010002

February, 2009

Dear Mercedes-Benz Owner,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Daimler AG (DAG), the manufacturer of Mercedes-Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2007 S-Class vehicles with regard to the front struts. Mercedes-Benz USA, LLC (MBUSA) therefore has initiated a recall of these vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

WE SENT YOU THIS NOTICE BECAUSE WE ARE CONCERNED ABOUT YOUR SAFETY.

Daimler AG (DAG) has determined a defect may exist in the ball joints of the front struts of affected vehicles due to a manufacturing process flaw at the supplier. During quality testing Daimler AG (DAG) detected the potential that ball joints of affected vehicles may not meet Mercedes-Benz long term durability requirements. Supplier investigation led to the identification of a production range which utilized the affected parts. If a ball joint on your vehicle fails the steer-ability of the vehicle may be affected and could lead to a vehicle crash.

Your authorized Mercedes-Benz dealer can check and replace, if necessary, the ball joint(s) in all potentially affected vehicles. This service will be provided free of charge. The working time required is approximately 2 hours. As a matter of normal service process, your authorized Mercedes-Benz dealer will also check for other repair measures which might be applicable to your vehicle and this may increase the required working time. Please contact your authorized Mercedes-Benz dealer for additional information and to schedule an appointment at your earliest convenience. Please mention Recall Campaign #2009-010002.
