

**AFFECTED VEHICLES**

**MODELS:** 2007-2008 OUTLANDER

Date: February 2009

Dear Mitsubishi Owner,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

**Reason For Notice:** Mitsubishi Motors North America, Inc. (MMNA) has decided that a defect that relates to vehicle safety exists in certain 2007-2008 Outlanders. The stop lamp switch may have been contaminated with silicone grease during vehicle assembly, which could cause the brake lamps to be inoperative. The failure of the brake lamps to illuminate when the brakes are applied will not provide warning to following traffic and could result in a crash.

**What you should do:** Please contact your Authorized Mitsubishi Dealer to schedule an appointment to have the stop lamp switch replaced on your vehicle, free of charge. When you bring your vehicle in, please show the dealer this letter. (If you misplace this letter, the dealer will still repair your vehicle, free of charge.)

**What your dealer will do:** The dealership will replace the stop lamp switch on your vehicle.

**How long will it take?** The time needed for the repair is approximately 30 minutes. The dealer may need your vehicle for a longer period of time due to service scheduling issues, but every effort will be made to minimize your inconvenience.

If you have any trouble having your vehicle repaired promptly and at no charge, please inform us by calling the Mitsubishi Customer Relations Department at **888-648-7820**.

Hours: Monday through Friday 6 a.m. to 5 p.m. (Pacific Time)
