SAFETY RECALL J07 – PARK BRAKE ADJUSTMENT MECHANISM

Dear: (Name)

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Chrysler has decided that a defect, which relates to motor vehicle safety, exists in some 2007 model year Dodge Sprinter (3500 series) vehicles.

The problem is... The park brake adjustment mechanism on your vehicle (VIN: xxxxxxxxxxxxxxxxx) may crack. This could cause the park brake to release during use and cause a crash without warning.

What your dealer will do... Chrysler will repair your vehicle free of charge (parts and labor). To do this, your dealer will replace the park brake adjustment mechanism in both rear wheel park brake assemblies. The work will take about 1½ hours to complete. However, additional time may be necessary depending on service schedules.

What you must do to ensure your safety... Simply contact your dealer right away to schedule a service appointment. Ask the dealer to hold the parts for your vehicle or to order them before your appointment. Remember to bring this letter with you to your dealer.

If you need help... If you have questions or concerns which your dealer is unable to resolve, please contact Chrysler at 1-800-853-1403.

Please help us update our records by filling out the attached prepaid postcard, if any of the conditions listed on the card apply to you or your vehicle. You may also update this information on the web site or by
