Dear Mr. Ansley,

I apologize for not responding sooner. somehow your request was overlooked. I would like to advise you that the material used for the hose is an appropriate material for such use. The hoses, as I understand it were not defective per se. Rather the application was compromised by the location in the engine compartment to a high level of heating, and it was affected by that heat and the shape of the hose. Here is the relevant contact information for you:

Supplier: YH America,Inc.(Mother company is Yokohama rubber in Japan) Contact
personnel : Brian Franklin
Title: Marketing Manager
Address : 105 Kuhlman Blvd. Versailles, KY 40383

If you have any other questions, please contact me at your convenience.

Thank you.

BILL WILLEN

Mr. Willen,

I don't see a response was sent from the below email in May. Does Honda plan to respond?

Mr. Willen,

Hello. We are looking into recall 08V-091 (attached) and need to follow-up with the supplier to ensure no other OEs received this recalled equipment.
Can you please reply with the supplier name, address, and contact personnel?

Thank you,

Alex Ansley
