Dear Pat Wallace:

This letter is to inform you that on March 3, 2008, Zimmerman Industries Inc. was notified by Ron Stansfield of Watson & Chalin that the SL-1190 steerable suspension that is now owned by Byron Rock & Ready Mix has been replaced. This is the only unit that we have sent out that was affected by the recall notice.

At this point in time we see no further action has to be taken and fulfills the requirements of the recall notification.

Sincerely,

Jerry L. Stoner
President
