Dealer Action

Repair Eligible Units:

Repair all eligible units including sold units in the field and unsold units in your dealership inventory prior to delivery to the retail purchaser. It is the obligation of authorized Kawasaki retail Dealers to repair eligible units in Dealer's possession prior to retail sale. Failure to comply with this obligation to repair all units eligible for Recall or FDM campaigns by the Dealer constitutes a breach of the Dealer Sales and Service Agreement. Refer to Service Policies bulletin SP 05-01. Refer to the Repair Procedure section of the bulletin for details.

IMPORTANT NOTE:

- o *It's the law! Under the U.S. National Highway Traffic Safety Administration (NHTSA), Federal Law 49 U.S.C. Section 30120(i) requires dealers to perform Recall repairs before delivering any vehicle affected by the Recall to a purchaser.*

Document Completed Repairs:

Federal law requires manufacturers to maintain accurate follow-up records on repairs performed on eligible units. Dealers MUST submit a Warranty Claim for each repair. Refer to the Warranty Information section of this bulletin for details.

NOTE:

- o *If you fail to submit a Warranty Claim for a new unit that is subsequently sold and registered, the new owner will receive the Recall letter requesting the return of the vehicle to you for repair.*

Submit Product Registration:

Submit the product registration to Kawasaki via K-Dealer immediately after retail sale of any eligible unit. Be sure to supply the correct customer name and mailing address. Kawasaki uses the product registration information for customer notification. Also, if you know that the customer has moved, please submit a Customer Update via K-Dealer.

SADDLEBAG LATCH AND REAR CARRIER PLATFORM REPLACEMENT WARNING AND RECALL NOTICE

Dear Kawasaki Concours™ 14/14 ABS Owner:

This notice has been sent to you in accordance with requirements of the National Traffic and Motor Vehicle Safety Act.

The reason for this notice:

Kawasaki Motors Corp., U.S.A. has decided that two defects which relate to motor vehicle safety exist in Concours 14 models.

On eligible units, under certain circumstances the pivot pin for the latches that secure the saddlebags to the vehicle can break if force is applied to either saddlebag such as in the event the vehicle falls over while parked or if the saddlebag(s) is improperly attached. Continued use of the vehicle with either saddlebag latch broken can result in the saddlebag(s) coming free of its mount during vehicle operation, creating the possibility of a crash resulting in injury or death. Our records indicate that you have purchased one of these units.

Additionally, the rear carrier platform could break if a Kawasaki Genuine Accessory Luggage system is installed on the carrier platform and a passenger leans against it. The carrier platform and luggage system could become detached from the vehicle, creating the potential for an accident resulting in injury or death.

What Kawasaki and your dealer will do:

Your Kawasaki dealer will replace the saddlebag latch assemblies for you at no charge with reinforced ones. Your Kawasaki dealer will determine if your vehicle will require the rear carrier platform replacement at the same time. The actual repairs will take up to one hour but may take longer due to scheduling at the dealership and the time needed to obtain required parts.

What you must do to ensure your safety:

Please call your authorized Kawasaki motorcycle dealer to schedule an appointment and take this letter with you at the time of your appointment. **DO NOT RIDE YOUR MOTORCYCLE UNTIL THIS REPAIR HAS BEEN COMPLETED.**

WARNING

With the exception of genuine Kawasaki Parts and Accessories, Kawasaki has no control over the design or application of accessories. In some cases, improper installation or use of accessories, or motorcycle modification, will void the warranty, can negatively affect performance, and can even be illegal. Refer to the Loading and Accessories Information in the Owner's Manual for additional important information.
