2. Total number of the above described chassis from Navistar: 410

3. Total number of recalled chassis under direct control: 3

4. Total number in dealer's inventory that have not been sold to consumers:

Brand New: 0      Used trade-in: 3 (as indicated above under #3)

5. Total number of subject vehicles that have been sold to consumers and registered: Beyond the "3" listed above under #s 3 & 4, the rest (407) were sold to consumers. Rexhall is uninformed as to the requested registration information, being that in the normal course of Rexhall's operations it did not receive DMV registration information from the consumers nor former dealerships. Moreover, Rexhall is informed that Workhorse (Navistar) has conducted a state registration search. Thus, in the course of Workhorse's (Navistar) reporting to NHTSA, they either already have or will provide the requested information.

6. With Workhorse (Navistar) already notifying the pertinent customers and dealers, Rexhall does not intend to notify the same parties.

Should any other concerns arise, as always, Rexhall remains willing to provide any such answers it can in this matter. Therefore, please feel free to contact me anytime.

Sincerely,

**Rexhall Industries, Inc.**
