OFFICE OF DEFECTS

George H. Person
Chief, Recall Management Division
Office of Defects Investigation
National Highway Traffic Safety Administration
1200 New Jersey Avenue SE
Washington DC 20690

Re: NHTSA Recall #
Trans Tech Recall #

Dear Mr. Person,

The purpose of this letter is to inform you that Trans Tech Bus has determined that a defect exists with a select group of Single rear wheel and Dual wheel Type A School Buses with a GVWR of 10,000 pounds or under manufactured between June 1, 2008 and October 21, 2009. Approximately 29.94% of our production is possibly affected.

The Non-compliance involves Federal Motor Vehicle Safety Standard No. 110, *Tire Selection and Rims*. Trans Tech Bus may have failed to affix the required label on vehicles it manufactured between the above-mentioned dates. With out this label the customer lacks information to select the appropriate tires and payload limitations. With out this information, it would be possible to overload the vehicle, which could affect vehicle handling and occupant or pedestrian safety.

Trans Tech bus came to the determination of the defect after discovering a break in procedures following the Termination of our Quality Control Manager in August of 2008. Currently all vehicles manufactured and released subsequent of October 19, 2009 are in compliance with Federal motor Vehicle Safety Standard No. 110. We have also taken steps in correcting our release procedures in an effort to avoid defects in the future.

The remedy for this recall is to simply affix the tire and loading information decal to the driver's door pillar. Trans Tech Bus will provide the customer with the proper decal and information.

Trans Tech has completed a draft of the Customer Notification Letter and Dealer Notification Letter, of which copies are included for your review and approval.

10/22/2009

Trans Tech will begin notification of customers immediately upon approval of submitted drafts of Customer and Dealer notification letters.

Trans Tech will provide the affected dealer with information that describes the recall service procedure. Trans Tech will work closely with both the dealer and end-user to ensure that all affected vehicles are corrected.

Trans Tech has completed a 573 Report, which is included for your review.

Sincerely,

Jose Vazquez

Trans Tech Bus

Safety Defect and Noncompliance Report Guide for Vehicles
PART 573 Defect and Noncompliance Responsibility and Reports¹

On October 19, 2009, Trans Tech Bus [MFR] decided that a defect which relates to motor vehicle safety exists in the motor vehicles listed below, and is furnishing notification to the National Highway Traffic Safety Administration in accordance with 49 CFR Part 573 **Defect and Noncompliance Responsibility and Reports**.

Date this report was prepared: October 22, 2009_____

Furnish the manufacturer's identification code for this recall (if applicable): _____

1. Identify the full corporate name of the fabricating manufacturer of the vehicle being recalled. If the recalled vehicle is imported, provide the name and mailing address of the designated agent as prescribed by 49 U.S.C. §30164.

Transportation Collaborative Inc. "DBA- Trans Tech Bus " _____

Identify the corporate official, by name and title, whom the agency should contact with respect to this recall.

Jose A Vazquez Warranty / Quality Control Manager

Telephone Number: 1- 845-988-0419 **Fax No.:** 845-988-0324

Name and Title of Person who prepared this report.

Jose A Vazquez
Warranty/ Quality Control Manager

Signed:

¹ Each manufacturer must furnish a report, to the Associate Administrator for Enforcement, for each defect or noncompliance condition which relates to motor vehicle safety.

This guide was developed from 49 CFR Part 573, "Defect and Noncompliance Responsibility and Reports" and also outlines information currently requested. Any questions please consult the complete Part 573 or contact Mr. George Person at (202) 366-5210, by FAX at (202) 366-7882, or by E-Mail to RMD.ODI@dot.gov.

I. Identify the Vehicle Models Involved in the Recall

2. Identify the Vehicles Involved in the Recall, for each make and model or applicable vehicle line (provide illustrations or photographs as necessary to describe the vehicle), provide:

Make(s): Trans Tech Bus **Model Years Involved:** 2007- 2009 **Model(s):** Q86,
DW4+9139,ST4, STH4,STH4-DWR,QF86-4,STHF4,RONDAK,Q86-
5,DW6158F,RONDAK4,RONDAKF4,STH5RL,RONDAK4+9,Q86-4,DW5139-FRL,DW5139_

Production Dates: Beginning: June 1st 2008 **Ending:** October 19,2009

VIN Range: Beginning: _____ **Ending:** _____

Vehicle Type: School Bus / MFSAB **Bodystyle:** _____

Descriptive information which characterizes/distinguishes the recalled vehicles from those model vehicles not included in the recall:

Type A School buses that have a GVWR of 10,000 pounds or less which do not have a Tire and Load Decal
with the proper information affixed to the Driver's Door B pillar.

Make(s): _____ **Model Years Involved:** _____ **Model(s):** _____

Production Dates: Beginning: _____ **Ending:** _____

VIN Range: Beginning: _____ **Ending:** _____

Vehicle Type: _____ **Bodystyle:** _____

Descriptive information which characterizes/distinguishes the recalled vehicles from those model vehicles not included in the recall:

Make(s): _____ **Model Years Involved:** _____ **Model(s):** _____

Production Dates: Beginning: _____ **Ending:** _____

VIN Range: Beginning: _____ **Ending:** _____

Vehicle Type: _____ **Bodystyle:** _____

Descriptive information which characterizes/distinguishes the recalled vehicles from those model vehicles not included in the recall:

Identify the approximate percentage of the production of all the recalled models manufactured by your company between the inclusive dates of manufacture provided above, that the recalled model population represents. For example, if the recall involved Vehicles equipped with certain items of equipment from

June 1, 2008 through October 19, 2009, then what was the percentage of the recalled Vehicles of all Vehicles manufactured during that time period. Approximately 28%

II. Identify the Recall Population

3. Furnish the total number of vehicles recalled potentially containing the defect or noncompliance.

<u>Model</u>	<u>Year</u>	<u>Number of Vehicles Potentially Involved</u>
DW4-9139	2007-2008	8
DW5139	2008	1
DW5139-FRL	2007	1
DW6158-FRL	2008	1
Q86-4	2007-2008	47
Q86-5	2007-2008	14
QF86-4	2008	50
RONDAK	2008	16
RONDAK4	2008	9
RONDAK4+9	2008-2009	1
RONDAKF4	2008-2009	23
ST4	2008-	49
STH4	2006-2008	45
STH4-DRW	2007	5
STH5RL	2008	1
STHF4	2008-2009	25

Total Number Potentially Affected by the Recall: 271

4. Furnish the approximate percentage of the total number of vehicles estimated to actually contain the defect or noncompliance:

Identify and describe how the recall population was determined--in particular how the recalled models were selected and the basis for the beginning and final dates of manufacture of the recalled vehicles:

Trans Tech Bus discovered a break in procedures following the termination of our Quality Control supervisor in August of 2008. To prevent any discrepancies we have decided to go two months back to June 1st 2008. All vehicle manufactured between June 1st 2008 and October 19th 2009 that have a GVWR of 10,000 pounds is potential involved in the recall. All vehicles that were manufactured and released after October 19, 2009 are in compliance with FMVS 110.

III. Describe the Defect or Noncompliance

5. Describe the defect or noncompliance. The description should address the nature and physical location of the defect or noncompliance. Illustrations should be provided as appropriate.

The non-compliance involves Federal Motor Vehicle Safety Standard No. 110, *Tire Selection and Rims* On Certain Vehicles manufactured between June 1st 2008 to October 19, 2009, the vehicle tire and load decal located at the driver's door B pillar was not installed.

Describe the cause(s) of the defect or noncompliance condition.

A failure in release procedures was discovered and it was determined that Trans Tech Bus failed to install the tire and load information decal on Vehicles that have a GVWR of 10,000 or less as required by Federal Vehicle Safety Standard No. 110.

Describe the consequence(s) of the defect or noncompliance condition.

With out the Tire and load decal, the customer lacks information to select the appropriate tires and payload limitations. With out this information, it would be possible to overload the vehicle, which could affect vehicle handling and occupant or pedestrian safety.

Identify any warning, which can (a) precede or (b) occur.

There is no warning that would indicate that the defect exists. Verification of the defect is requires physical inspection.

If the defect or noncompliance is in a component or assembly purchased from a supplier, identify the supplier by corporate name and address.

None

Identify the name and title of the chief executive officer or knowledgeable representative of the supplier:

IV. Provide the Chronology in Determining the Defect/Noncompliance

If the recall is for a defect, complete item 6, otherwise item 7.

6. With respect to a defect, furnish a chronological summary (including dates) of all the principle events that were the basis for the determination of the defect. The summary should include, but not be limited to, the number of reports, accidents, injuries, fatalities, and warranty claims.

7. With respect to a noncompliance, identify and provide the test results or other data (in chronological order and including dates) on which the noncompliance was determined.

On October 18,2009, a random audit was preformed on units on the production line before release, it was at this time that Trans Tech Bus discovered the non-compliance issue with FMVSS No. 120. After confirming that the Tire and Load information decal was not begin installed on units having a GVWR of 10,000 pounds or less. On October 18, 2009 and October 19,2009 ,Trans Tech Bus lunched an investigation which lead to the conclusion that procedures had been broken following the termination of the Quality Control Supervisor in August of 2008.It was the decision of Trans Tech Bus to set the start date of the non-compliance two months before termination of the above mentioned employee in the interest of safety.

V. Identify the Remedy

8. A description of the manufacturer's program for remedying the defect or noncompliance. This program shall include a plan for reimbursing an owner or purchaser who incurred costs to obtain a remedy for the problem addressed by the recall within a reasonable time in advance of the manufacturer's notification of owners, purchasers and dealers, in accordance with §573.13 of this part. A manufacturer's plan may incorporate by reference a general reimbursement plan it previously submitted to NHTSA, together with information specific to the individual recall. Information required by §573.13 that is not in a general reimbursement plan shall be submitted in the manufacturer's report to NHTSA under this section. If a manufacturer submits one or more general reimbursement plans, the manufacturer shall update each plan every two years, in accordance with §573.13. The manufacturer's remedy program and reimbursement plans will be available for inspection by the public at NHTSA headquarters.

The Remedy for this recall is to simply affix a Tire and Load information Decal on the drivers door B pillar. The proper Tire and Load Information decal will be provide to the customer at no cost. In the event that the

customer has corrected the non-compliance issue on there own, Trans Tech Bus will reimburse the customer upon furnishing a completed invoice.

9. Furnish a description of the manufacturer's remedy for the defect or noncompliance. Clearly describe the differences between the recall condition and the remedy.

Customers will be asked to inspect the vehicle and locate the Tire and Load information at the Drivers door B pillar. If the vehicle has the proper decal affixed no remedy will be required, in the event that the Decal is not installed customer will be provided with the proper Tire and load information decal for their particular model at no cost.

Clearly describe the distinguishing characteristics of the remedy component/assembly versus the recalled component/assembly.

The remedy is simply the tire and load label being affixed to the vehicle. The recall is the addition of a missing label on the vehicle.

Identify and describe how and when the recall condition was corrected in production. If the production remedy was identical to the recall remedy in the field, so state. If the product was discontinued, so state.

Following the investigation that leads to the recall. Trans Tech Bus implemented new Quality Control guidelines to be followed before a vehicle is released. These guidelines include weighing all vehicles that have a GVWR of 10,000 pounds or less, inspected all release documents before a vehicle is released and performing weekly audits on vehicles.

VI. Identify the Recall Schedule

10. Furnish a schedule or agenda (with specific dates) for notification to other manufacturers, dealers/retailers, and purchasers. Please, identify any foreseeable problems with implementing the recall.

Trans Tech Bus will begin notification of customers immediately upon approval of submitted drafts of customer and dealer notification letters. Trans Tech Bus expects to have the recall notices sent by November 1, 2009.

VII. Furnish Recall Communications

11. Furnish a final copy of all notices, bulletins, and other communications that relate directly to the defect or noncompliance and which are sent to more than one manufacturer, distributor, or purchaser. This includes all communications (including both original and follow-up) concerning this recall from the time your company determines the defect or noncompliance condition on, not just the initial notification. *A DRAFT copy of the notification documents should be submitted to this office by Fax (202-366-7882) or by E-Mail to RMD.ODI@dot.gov for review prior to mailing.*

Note that these documents are to be submitted separately from those provided in accordance with Part 579.5 requirements.
