

March 1, 2010

Mr. Daniel C. Smith  
Associate Administrator for Enforcement  
National Highway Traffic Safety Administration  
Recall Management Division (NVS-215)  
1200 New Jersey Avenue, SE – Room W45-306  
Washington, DC 20590

Dear Mr. Smith:

The following is an update of the information provided in paragraph 573.6(c)(2)(3)(4) and 573.6(c)(9) in our October 22, 2009 letter as it relates to a decision by General Motors to recall certain 2006 model year Chevrolet Cobalt and Saturn Ion vehicles in Arizona and Nevada and 2007 model year Chevrolet Cobalt, Saturn Ion and Pontiac G5 vehicles in Arizona, Nevada, California, Florida and Texas for a condition in which, the plastic supply or return port on the modular reservoir assembly (MRA) may crack. This information is submitted pursuant to the requirements of 49 CFR 573.6.

GM is amending its October 22, 2009 letter to include additional vehicles and the mail date of owner letters. GM obtained current information from RL Polk which identified these vehicles as being originally sold in the states included in this recall.

573.6(c)(2)(3)(4): This information is shown on the attached sheet.

573.6(c)(9): GM anticipates mailing owner letters to the additional vehicle population on March 5, 2010.

If you have any questions regarding this revision to GM's October 22, 2009 letter please call.

Sincerely,

Gay P. Kent,  
Director, Product Investigations  
and Safety Regulations
