

TO: Winnebago Industries, Inc. Dealers

SUBJECT: Campaign #113 – Stove Partition

The National Traffic and Motor Vehicle Safety Act, as amended, provides that each vehicle which is subject to a recall campaign of this type must be adequately repaired within a reasonable time after the owner has tendered it for repair. A failure to adequately repair within 60 days after tender of a vehicle is prima facie evidence of failure to repair within a reasonable time.

If the condition is not adequately repaired within a reasonable time, the owners may be entitled to an identical or reasonably equivalent vehicle at no charge or to a refund of the purchase price less a reasonable allowance for depreciation.

To avoid having to provide these burdensome solutions, every effort must be made to promptly schedule an appointment with each owner and to repair their vehicle as soon as possible. As you will see in reading the enclosed copy of the letter which is being sent to owners, the owners are being instructed to contact Winnebago Industries, Inc. if you do not remedy the condition within five days of the mutually agreed upon service date. If the condition is not remedied within a reasonable time, they are instructed on how to contact the National Highway Traffic Safety Administration.

REASON FOR THIS RECALL

Winnebago Industries, Inc. has decided that a defect which relates to motor vehicle safety exists on certain 2007 and 2008 Model Year Winnebago® (Models: Access®, Aspect®, Sightseer®, and Vista®); 2007 and 2008 Model Year Itasca® (Models: Impulse®, Cambria®, Sunova®, and Sunstar®); 2009 and 2010 Model Year Winnebago (Models: Access, Sightseer, and Vista); and 2009 and 2010 Model Year Itasca (Models: Impulse, Sunova, and Sunstar).

These motor homes were manufactured January 25, 2007 through July 17, 2009. These vehicles may have a missing stove partition that isolates the furnace return air. If the furnace is operated at the same time as the stove and the partition is missing, the stove flame may go out and the propane gas will continue to flow, which has the potential to ignite resulting in personal injury and/or vehicle and property damage.

OWNER NOTIFICATION

Owners will be notified of this campaign on their vehicles by Winnebago Industries, Inc. For all units in your inventory, the notification will be mailed to you. **DO NOT DELIVER TO A CUSTOMER ANY SUBJECT UNIT UNTIL CORRECTIVE ACTION HAS BEEN TAKEN.** Enclosed is a list of vehicles shipped to you.

DEALER CAMPAIGN RESPONSIBILITY

Dealers are to service all vehicles subject to this campaign at no charge to owners regardless of mileage, age of vehicle, or ownership from this time forward.

Whenever a vehicle subject to this campaign is taken into new or used vehicle inventory or it is in your dealership for service in the future, you should take the steps necessary to be sure the campaign correction has been made before reselling or releasing the vehicle. Owners of vehicles recently sold from your new vehicle inventory are to be contacted by the dealer, and arrangements made to make the required correction according to instructions contained in this campaign.

INSTRUCTION TO PERFORM CAMPAIGN #113

Affected Models:

2007 and 2008 Winnebago:

- Access (Model 231C)
- Aspect (Models 726A and 729H)
- Sightseer (Models D26P, D30B, and D35J)
