*******RECALL NOTICE*******

Dealer Notice

NHTSA Recall # 09V-416

Trans Tech Recall # 09V-416

Dear Trans Tech Bus Dealer,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

The purpose of this notice is to inform you that Trans Tech Bus has determined that a defect exists with a select group of Single rear wheel and Dual wheel Type A School Buses with a GVWR of 10,000 pounds or under manufactured between June 1, 2008 and October 21, 2009.

The Non-compliance involves Federal Motor Vehicle Safety Standard No. 110, *Tire Selection and Rims*. Trans Tech Bus may have failed to affix the required label on vehicles it manufactured between the above-mentioned dates. With out this label the customer lacks information to select the appropriate tires and payload limitations. With out this information, it would be possible to overload the vehicle, which could affect vehicle handling and occupant or pedestrian safety.

The remedy for this recall is to simply affix the tire and loading information decal to the driver's door pillar. Trans Tech Bus will provide the customer with the proper decal and information.

Trans Tech Bus would like to assure its dealers that we have taken steps in correcting our release procedures in an effort to avoid defects such as this one in the future. We will make every effort possible to provide the affected dealer with both service assistants and information that describes the recall service procedure. Trans Tech will work closely with both the dealer and end-user to ensure that all affected vehicles are corrected.
