**2009 Mazda B-Series 4x2 Front Spindle Voluntary Safety Recall 5109A**

Dear Mazda Owner:

This notice is sent to you in accordance with the requirements of the National Highway Traffic and Motor Vehicle Safety Act.

Mazda Motor Corporation has decided that a defect which relates to motor vehicle safety exists on certain 2009 Mazda B-Series trucks equipped with 2-wheel drive and produced from August, 22 2008 through October 13, 2008. **If you are the recipient of this notice, your vehicle is included in this recall.**

**What is the problem?**

On certain 2009 Mazda B-Series trucks equipped with 2-wheel drive, the front spindle stem may crack due to an improper manufacturing process of the spindle. If a fracture of the spindle stem occurs, the wheel may separate from the axle, which may result in a loss of steering, increasing the risk of a crash without warning.

**What will Mazda do?**

Your Mazda dealer will inspect the front spindle and replace it if necessary. This repair will be done **free of charge**. The inspection and repair may take between 20 minutes to 3 hours to complete depending on the necessary repair; however, it may take longer depending on the service workload at your Mazda dealership.

As a reminder, Mazda may provide alternate transportation when your vehicle is at an authorized Mazda dealership for a warranty repair. To be eligible for alternate transportation, your vehicle must be within the mileage and time limitations under the Mazda New Vehicle Limited Warranty or Powertrain Limited Warranty for 2007 and newer model years, and adhere to the Rental Car Reimbursement policy. Ask your dealer for details about the Mazda Rental Car Reimbursement Program.

**What should you do?**

Mazda is concerned about your safety, and we encourage you to make an appointment with any authorized Mazda dealer to have the front spindle stem inspected as soon as possible. You do not need to bring this notice to the dealer, but it may assist in the check-in process.

**What if you already paid for a front spindle repair?**

If you have already paid for the repair or replacement of the front spindle stem, prior to receiving this notice, you may be eligible for reimbursement of reasonable repair expenses based on Mazda's repair standards.

Please complete the enclosed "Reimbursement Application Form", include the necessary documentation, and mail it to us in the pre-addressed envelope provided, allowing 6-8 weeks for processing.
