

SAFETY RECALL NOTICE

June 2009

<CustomerName>
<CustomerAddress>

Dear <CustomerName>:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that certain <Year> model year <VINDivisionName> <Vehicle_Name> vehicles fail to conform to Federal Motor Vehicle Safety Standards 108, "Lamps, Reflective Devices, and Associated Equipment" and 138, "Tire Pressure Monitoring Systems". As a result, GM is conducting a recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

IMPORTANT

- Your <Year> model year <VINDivisionName> <Vehicle_Name>, VIN <VIN>, is involved in safety recalls 09046 and 09101.
- Schedule an appointment with your <DIV_DLR> <dlr_rtr>.
- This service will be performed for you at **no charge**.

Why is your vehicle being recalled?

The brake pedal position switch on your vehicle may have been incorrectly programmed. With this condition, the brake lamps may be continually illuminated and fail to warn a following driver when the vehicle is braking, and could lead to a crash.

Also, a low tire pressure telltale must illuminate to warn the driver when tire pressure is 25% below the manufacturer's recommended cold inflation pressure. Your vehicle has incorrect values programmed into the Tire Pressure Monitoring System (TPMS) that will not illuminate the TPMS warning lamp until tire pressure falls below values required by the Standard. Driving on a significantly under-inflated tire causes the tire to overheat and can lead to tire failure.

What will we do?

Your <DIV_DLR> <dlr_rtr> will reprogram the brake position sensor and also reprogram the remote control doorlock receiver with the correct values. This service will be performed for you at **no charge**. Because of service scheduling requirements, it is likely that your <dlr_rtr> will need your vehicle longer than the actual service correction time of approximately 35 minutes.

If your vehicle is within the New Vehicle Limited Warranty your <dlr_rtr> may provide you with shuttle service or some other form of

courtesy transportation while your vehicle is at the <dship_fcly> for this repair. Please refer to your Owner's Manual and your <dlr_rtr> for details on courtesy transportation.

What should you do?

You should contact your <DIV_DLR> <dlr_rtr> to arrange a service appointment as soon as possible.

Do you have questions?

If you have questions or concerns that your <dlr_rtr> is unable to resolve, please contact the <VINDivisionName> Customer Assistance Center at <DivCACPhone>. More information about your vehicle can be found at the Owner Center at www.gmownercenter.com

If after contacting your <dlr_rtr> and the Customer Assistance Center, you are still not satisfied we have done our best to remedy this condition without charge and within a reasonable time, you may wish to write the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE., Washington, DC 20590, or call the toll-free Vehicle Safety Hotline at 1.888.327.4236 (TTY 1.800.424.9153), or go to <http://www.safercar.gov>.

Federal regulation requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.
