Safety Recall: 09V-???  
Service Advisory: 09-121

VIN: «VIN»

Dear «Owner\_Name»:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Keystone RV Company has decided that certain model 2009 Fuzion Fifth Wheels fail to conform to the requirements of Part 567, "Certification." As a result, Keystone RV is conducting a safety recall. We apologize for any inconvenience this action may cause you; however your safety and continued satisfaction are of the utmost importance to us.

***Reason for  
this recall***

On the vehicles subject to this recall, the Federal Identification Label and Tire and Loading Information Label does not contain the correct tire inflation pressure. The label indicates a pressure of 800 PSI, but instead should read 80 PSI. Improper tire pressure can lead to tire failure and an increased risk of property damage.

***What we will do***

We have enclosed the corrected tags to remedy the situation.

***What we need  
you to do***

At your earliest convenience, apply the new Federal Identification Tag and the Tire and Loading Label over top of the existing labels. If you require assistance installing the labels, please make an appointment with your dealer and bring the unit to the dealership and they will install the label at no cost to you.

***If you have  
questions***

Please contact Keystone Customer Service by calling 1-866-425-4369 if you have any questions.

If after contacting Keystone Customer Service you are still not satisfied we have done our best to remedy this situation, you may also submit a written complaint to: Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE, Washington, DC 20590. You may call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153; or go to <http://www.safercar.gov>.)

Thank you for your attention and cooperation in this matter.

Sincerely,

**KEYSTONE RV COMPANY**
