Re: Newmar Corporation – Motor Vehicle Recall Notification

Subject: Newmar Serial No.: 460117
Chassis Serial No.: 4VZBR3D968C062861
Recall Campaign No.: 09V-260

Dear Valued Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

REASON FOR THIS RECALL

Newmar Corporation has decided that a defect which relates to motor vehicle safety exists in specific motorhomes. Following engineering analysis of a field report, Newmar has determined that a potential shock and fire hazard exists in the vehicle identified above.

The ground cable for the electric leveling jacks is improperly sized and may result in an overloaded conductor during operation of the leveling system. Overloaded conductors experience internal overheating and may fault creating an electric shock hazard. Overheating along with electric arcing may generate sufficient heat to ignite nearby material.

These motorhomes require immediate service. Conductor overload may occur with no obvious indicators. Continued use of the electric leveling system poses a safety hazard.

WHAT WE WILL DO

Newmar Corporation will provide owners of all affected motorhomes a remedy for the potential defect at no charge for parts or labor. This remedy consists of the installation of an approved grounding cable.

WHAT YOU NEED TO DO

As this defect does affect motor vehicle safety, it is recommended that you contact the Newmar service department immediately at **(800) 731-8300**. An associate will assist you in making an appointment to have this repair done by an authorized Newmar Dealer or Service Center.

Federal regulations require that any vehicle lessor receiving this recall notification must forward a copy of this notice to the lessee within ten days.

If you have had the repair performed before receiving this letter, you may be eligible to receive reimbursement for the cost of obtaining a pre-notification remedy. For additional information contact Newmar Corporation at:
