Ricon Wheelchair Lift Model «Lift\_Model», Serial #«Lift\_Serial\_Number»

Dear «Company\_Name»:

Main Mobility, Inc. has decided that certain 2005-2008 Chevrolet Express/GMC SAVANA vans fail to conform to Federal Motor Vehicle Safety Standard No. 110, "Platform lift systems for motor vehicles". Our records show that you may have one or more buses built or altered by Main Mobility, Inc. that has a wheelchair lift built by Ricon Corporation between April 1, 2005 and September 6, 2006, inclusive. Ricon Corporation has determined that a safety related non-compliance with Section 6.10.2.3 of the FMVSS 403 exists in these wheelchair lifts.

### !!!IMPORTANT!!!

- Your Ricon Wheelchair Lift is being recalled
- Contact Main Mobility, Inc. or The Ricon Corporation immediately

#### WHAT IS BEING RECALLED:

This recall process applies to the "Anti Stow Interlock System" only on Ricon's "1200, 2000 and 5500" series platform lifts labeled for "DOT Public Use" and "DOT Private Use". It does not apply to other Ricon products.

#### WHY IS IT BEING RECALLED:

The non-compliance with S6.10.2.3 of the FMVSS 403 is the result of the Anti Stow Interlock System not detecting the presence of a 50lb test weight on the platform operating volume. In the event this condition occurs during passenger operations it may be possible for the lift platform to

begin stowing while a wheelchair or mobility aid user is still occupying the area of the platform close to the pivot point on the platform. This situation could cause personal injury.
