Dear Mr. Sam Sample,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

In September 2009, a letter was sent to eligible vehicle owners announcing a Safety Recall on the Central Electronic Module (CEM). Our records indicate that this important safety recall has not been completed on your vehicle. Please schedule an appointment at your local authorized Volvo retailer as soon as possible to have this important safety recall performed at no charge.

Volvo Cars of North America, LLC (Volvo) has decided that a defect related to motor vehicle safety exists in the Central Electronic Module (CEM) software on certain model year 2008 through 2010 S80 T6, 2009 through 2010 XC70 T6 and 2010 XC60 T6 vehicles.

The reason for Recall 215:

Volvo has found that under certain conditions, the vehicle may stall shortly after start – up, which can increase the risk of a crash.

Please note:

If you experience the condition above prior to having this recall completed, the vehicle can be re-started by turning the ignition off and waiting one minute before restarting the engine.

The corrective action will be a software upgrade of the CEM.

What you need to do:

Please call your authorized Volvo retailer to schedule an appointment. This procedure will be completed at no cost and can take 30 minutes to complete; **however, due to service scheduling the time your Volvo retailer requires to service your vehicle may vary.**

If you previously paid to have this corrective action performed, prior to the date on this letter, your authorized Volvo retailer will honor your receipt with a refund. Please contact your authorized Volvo retailer service department for details.
