This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. This notice is also sent in accordance with the Canadian Motor Vehicles Safety Act.

Daimler Trucks North America LLC, on behalf of its Freightliner Trucks Division, has decided that a defect that relates to motor vehicle safety exists on specific Freightliner Cascadia model vehicles manufactured September 26, 2007, through June 16, 2008, with Indiana Mills & Manufacturing RollTek side-roll protection systems.

The roll sensor designed to detect vehicle pitch and control the deployment of the system's seatbelt pretensioner and side air bag may have a manufacturing defect. A defective sensor may cause the system to deploy inadvertently, resulting in possible personal injury.

The sensors will be inspected and replaced as needed.

Parts are now available for authorized dealers to order. Please note that your vehicle requires an inspection to determine if a replacement part is needed. Replacement parts must be ordered after your vehicle is inspected. Contact your authorized dealer to arrange to have the recall performed. To locate a dealer, search online at www.FreightlinerTrucks.com or contact the Warranty Campaigns Department for assistance.

When you contact your dealer, refer to campaign number **FL559A-C**. Once kit(s) are received at the dealership, the Recall will take approximately half an hour to an hour plus shipping time for replacement parts, depending on the work needed, and will be performed at no charge to you.

IMPORTANT: When the Recall has been completed, please ensure that a label has been affixed to your vehicle referencing **FL559A-C**.

If you do not own the vehicle that corresponds to the identification number(s) which appears on the Recall Notification, please return the notification to the Warranty Campaigns Department with any information you can furnish that will assist us in locating the present owner. If you have leased this vehicle, Federal law requires that you forward this notice to the lessee within 10 days. If you are a subsequent stage manufacturer, Federal law requires that you forward this notice to your distributors and retail outlets within five working days. If you have paid to have this recall condition corrected prior to this notice, you may be eligible to receive reimbursement. Please see the reverse side of this notice for details.
