Product Safety & Compliance

******* IMPORTANT VEHICLE RECALL NOTICE *******
RECALL REPAIR REQUIRED PRIOR TO CUSTOMER DELIVERY

DATE: November 13, 2009

TO: All U.S. and Canadian Volvo Retailers

RE: Volvo Recall 216
Certain Model Year 2010 - XC60

The sale or lease of defective or non-compliant motor vehicles or equipment is prohibited. Vehicles in retailer inventory must be remedied prior to sale. Repair information is attached to this communication.

Volvo Cars of North America, LLC (Volvo) has decided to conduct a voluntary safety recall on certain model year 2010 XC60 vehicles.

Volvo has identified that the driver's seat side cover panel (seat control panel) in certain driver's side impacts may compromise the functionality of the seatbelt. Should this condition occur the seatbelt anchor point may disengage increasing the risk of injury during a collision.

Volvo has no reports of this condition occurring outside a laboratory environment.

The corrective action is to modify the inside of the driver's seat side cover panel.

OWNER NOTIFICATION

Owner notification is scheduled to begin in mid December.

PARTS INFORMATION:

Volvo is requesting retailers to inspect their current inventory on the part numbers listed below.

39892966
39892967
39892978
39892979

Retailers need to modify any parts in inventory per the instructions below prior to installing them on a vehicle. Volvo Parts Distribution Centers will temporarily block these parts for sale in order to modify existing inventory. The parts will then be available if a replacement is needed.

CAMPAIGN REIMBURSEMENT PROCEDURES (LONG FORM APPLICATION)

A complete recall information package will be released when all the eligible vehicles are correctly marked in VRC2 Vehicle Inquiry on Wednesday November 18th. Please perform the recall as soon as possible, but do not submit claims for payment until November 18th.

Claim Type: R89067

Cause Code: 02

CSC Code: XW

Operation Number	Repair Description	Qty	Labor Time
99400	Seat Side Panel Adjust	1	0.1
85211	Replace Front Seat Side Panel	1	0.3

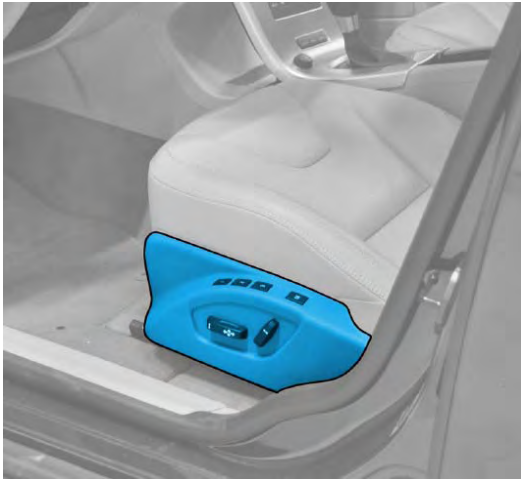

REPAIR METHOD:

Please refer to the repair method listed below.

TOOLS:

Description		
End Cutters (a.k.a. side cutter)		Standard Hand Tool
Grinding Tool		Standard Hand Tool

SERVICE: Remove the driver's seat cover panel and with the cover face down on a soft surface remove the panel reinforcement ribs as indicated in the following steps.

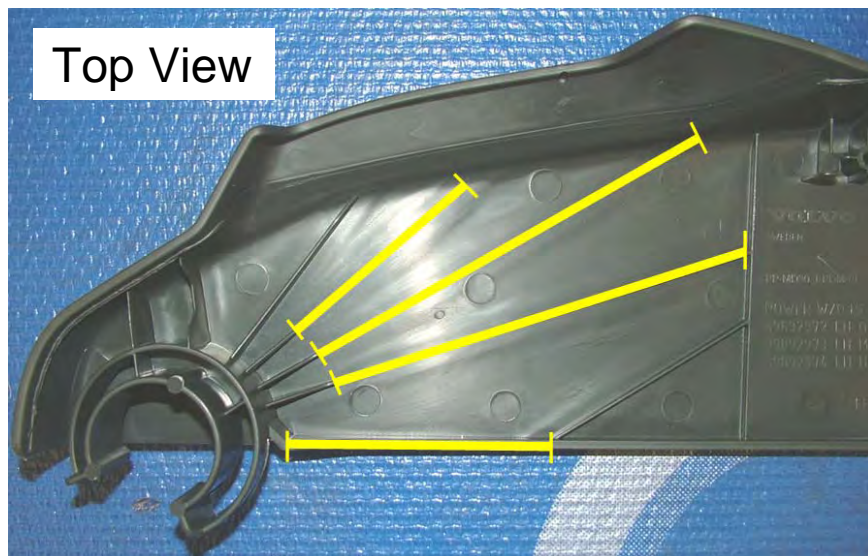

Per VIDA: remove the driver seat side panel

- Repair

- Removal, replacement and installation

- 8 Body and Trim
- 85 Interior
- 852 front seat, drivers seat, seat bench type
- side panel front seat

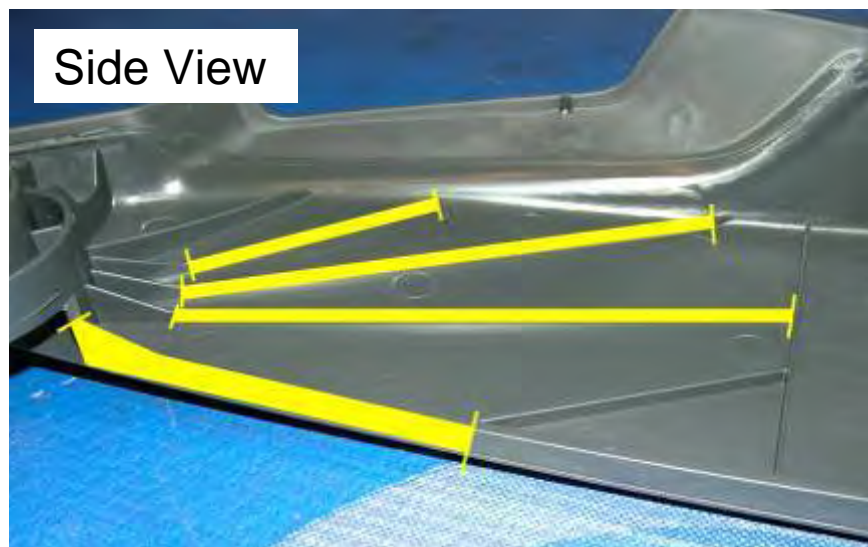

Removing the rib material

When removing the ribs place the cover face down on a protective material so you do not damage/scratch.

NOTE: Only remove the sections of the four ribs highlighted here. There is no need to remove additional material!

If necessary, see photos on page 3 for example of modification.

With the end cutting pliers cut off as much of the rib material from the back-side of the panel as possible.

This will reduce the amount of grinding necessary. The intention is to not grind through the panel and require a replacement panel.

After cutting with the end cutters use a small grinding tool to remove the remaining rib material from the back-side of the panel as shown here.

The surface should look similar to the photo here and be smooth when completed.

NOTE: Only the material indicated on page 2 has been removed.

Reinstall the side panel and check for proper power seat functions.

SEE ELIGIBLE U.S. and CANADIAN LIST OF VEHICLES THAT ARE NOT RETAILED BELOW
This list is only of vehicles which according to our records are **not yet retailed** and in retailer stock.
