

IMPORTANT RECALL NOTICE

February 04, 2010

Dear Volvo Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

In February 2008, a letter was sent to eligible vehicle owners announcing a safety recall for incorrect labels on Integrated Booster Seats. Our records indicate that this important safety recall has not been completed on your vehicle. Please schedule an appointment at your local authorized Volvo retailer as soon as possible to have this recall repair performed at no charge.

The reason for this recall:

Volvo Cars of North America, LLC. (Volvo) has decided that certain Model Year 2008 XC70 and V70 vehicles equipped with rear Integrated Booster Seats fail to conform to the labeling requirements within Federal Motor Vehicle Safety Standard No. 213 Child Restraint Systems section S5.5.2. Labels on the affected vehicles are missing warning information indicating that "Death or Serious Injury can occur" if manufacturer's instructions are not followed when using child restraint systems.

This recall pertains only to the warning label secured to the Integrated Booster Seat and does not affect the integrity of the seat itself.

The corrective action will be to install a new label with the correct warning information.

What you need to do:

Please call your authorized Volvo retailer as soon as possible to schedule an appointment. This procedure will be completed at no cost and will take approximately 20 minutes. Due to service scheduling, your Volvo retailer may require your vehicle for a longer period of time.

Please contact:
