February 2010

**1998-2002 B-SERIES CRUISE CONTROL DEACTIVATION SWITCH SAFETY RECALL 4707H  
THIRD NOTIFICATION**

Dear Mazda Owner:

This third notification is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. A first notice was sent in September 2007, and a second notification in April 2009.

According to our records, as of January 31, 2010 your vehicle has not had the necessary recall repair completed. There is a possibility that on certain 1998-2002 Mazda B-Series vehicles, a component of the cruise control deactivation switch may deteriorate over time and develop a leak. This occurrence could cause the switch to overheat, smoke, or burn which could result in an underhood fire. This condition may occur either when the vehicle is parked or when it is being operated, even if the cruise control is not in use.

Your Mazda dealer will install a fused wiring harness into the cruise control system or, if necessary, replace the cruise control deactivation switch on your vehicle **free of charge**.

To locate your nearest Mazda dealer, visit our web site and try our "Locate a Dealer" feature at [www.MazdaUSA.com](http://www.MazdaUSA.com) or consult your local yellow pages.

If you have moved or no longer own your B-Series vehicle, please complete the enclosed prepaid *Information Change Card* as soon as possible. This enables us to update our records and notify the current owner.

**Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.**

If you have any questions regarding this campaign, please contact our Customer Assistance Center at (800) 222-5500, option #4.

If Mazda or its dealers do not repair the defect free of charge and within a reasonable amount of time, you may notify the Administrator of the National Highway Traffic Safety Administration, 1200 New Jersey Ave., SE, Washington, DC 20590; or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.

Your safety is a priority for Mazda. We actively work to improve our products and search for solutions to improve your ownership experience. Please accept our apologies for any inconvenience this program may have caused you.

Sincerely,

Mazda North American Operations
