RE: 2004-2010 Mitsubishi Endeavor Fuel Filler Pipe

Dear Ms. Timian:

On February 24, 2010, Mitsubishi Motors North America, Inc. (MMNA) submitted a letter pursuant to 49 C.F.R. Part 573.5-Defect and Noncompliance Information Report (DIR) that resulted in recall campaign 10V065000. On December 17, 2010, MMNA submitted an amended DIR in order to expand this recall campaign.

In the amended DIR, MMNA had proposed a phased mailing plan in April and again in June due to the projected availability of replacement parts. In further discussions with you related to the timeline for this phased mailing, it was determined that an interim customer communication would be necessary due to the length of time between the DIR and the April/June mailings.

Since that time, MMNA and MMC have been working with parts suppliers and have been able to move up the initial projected parts availability timeframe and has allowed us to move up our date for launching the recall. Accordingly, our schedule is now the third week of February for notification to dealers and the last week of February for notification to owners. The owner notification is included with this communication. The technical bulletin drafts will be forwarded to your attention when they become available.

If you have any questions or need any additional information, please let me know.

Sincerely,

A handwritten signature in black ink, appearing to read "Tom Bennett".
