Dear Sir or Madam:

Pursuant to 49 CFR Part 573, Jayco, Inc. (“Jayco” or the “Company”) is submitting this report to NHTSA concerning a recall campaign, which is being voluntarily initiated. Specific information is as follows:

573.5(c)(2)

Affected vehicles are Model Year 2011 Jayco model Jay Feather Select Travel Trailers, series 29L.

The affected vehicles were manufactured between June 1, 2010 and September 10, 2010.

The recall population was determined from the manufacturing records for the Company’s manufacturing plant in Middlebury, Indiana, which produced the affected recreational vehicles.

573.5(c)(3)

A total of thirty-five (35) vehicles are subject to this recall. Specific Vehicle Identification Numbers (VIN) are as follows:

Model year 2011 vehicles with a starting VIN of 1UJBJ0BR0B1JL0052 and ending with 1UJBJ0BRXB1JL0141.

573.5(c)(4)

Jayco is recalling 100 percent of the affected vehicles identified in the scope.

573.5(c)(5)

Jayco has determined that the stove in the outside kitchen area was not tested for LP leaks. As a result, it is possible that there could be an LP leak which, in the presence of an ignition source, could result in a fire, injury, or death.

573.5(c)(6)

During the course of routine inspection, it was discovered that the stove in the exterior kitchen was not being tested for LP leaks.

573.5(c)(8)

The remedy for the affected travel trailers will involve testing for LP leaks and tightening any connections that may be determined to be leaking.

Copies of the repair instructions, dealer notification letters, and owner letters will be provided to the agency within 10 business days. Jayco is contacting all dealers and retail owners of the affected vehicles. Upon notification Jayco is prepared to begin dealer notification within 5 business days after approval, and to owner's ten business days subsequent to dealer notification.

Thank you for your assistance,
