Washington, DC. 20590

Dear Sir or Madam:

Pursuant to 49 CFR Part 573, Starcraft RV ("Starcraft" or the "Company") is submitting this report to NHTSA concerning a recall campaign, which is being voluntarily initiated. Specific information is as follows:

573.6(c)(2)

Affected vehicles are Model Year 2011 Starcraft Lexion Fifth-wheels, series 359BHSA and 354RTSA.

The affected vehicles were manufactured between June 9, 2010 and September 20, 2010.

The recall population was determined from the manufacturing records for the Company's manufacturing plant in Middlebury, Indiana, which produced the affected recreational vehicles.

573.6(c)(3)

A total of fourteen (14) vehicles are subject to this recall. Specific Vehicle Identification Numbers (VIN) are as follows:

Model year 2011 vehicles with a starting VIN of 1SACS0BU0B1LM5057 and ending with 1SACS0BUXB1LE5059.

573.6(c)(4)

Starcraft is recalling 100 percent of the affected vehicles identified in the scope.

573.6(c)(5)

Starcraft has determined Norcold, Inc., a manufacturer of gas absorption refrigerators which are sold for application in Recreational Vehicles ("RVs"), has voluntarily recalled models 1200AC, 1200ACIM, 1200LR, 1200LRIM, and 1201LRIM under previously issued NHTSA recalls identified as 02E-045, 08E-030, 09E-026, and 09E-027. These recalls covered cooling units installed on the 1200 series product manufactured from December 1996 up through December 2002. Recalls 08E-030, 09E-026, and 09E-027 involved the installation of a thermal switch on the cooling units manufactured from December 1996 through December 2002. Under the current

action, Norcold is voluntarily extending a recall of all 1200, 1201, 1210, and 1211 models to include units produced from January 1, 2003 to October 7, 2010. The population of refrigerators being addressed contain either a sensing algorithm or a thermal switch to interrupt power to the refrigerator when it detects high temperatures that could lead to a fire. The algorithm and the thermal switch respond too slowly to a high temperature situation and may not shut off the power soon enough to prevent a fire.

573.6(c)(6)

We received a letter from Norcold on November 4, 2010 informing us of their decision to voluntarily initiate this safety recall. Subsequently, we researched our records to determine the population of affected units.

573.6(c)(8)

The recall population will include all refrigerator models 1200, 1201, 1210, and 1211 with serial numbers from 31525 to 13088811, non-consecutively, manufactured between December 1996 and October 6, 2010, and having a cooling unit serial number between 700000 and 13085759. These refrigerators must be retrofitted with a thermocouple high temperature sensing system, Norcold part number 634737 Recall Kit - HTS. Kits can be ordered from Norcold by calling 800-444-7210.

Copies of the repair instructions, dealer notification letters, and owner letters will be provided to the agency within 10 business days. Starcraft is contacting all dealers and retail owners of the affected vehicles. Upon notification Starcraft is prepared to begin dealer notification within 5 business days after approval, and to owner's ten business days subsequent to dealer notification.

Thank you for your assistance,

A handwritten signature in cursive script that reads "Joseph J. Resil". The signature is written in black ink and is positioned below the text "Thank you for your assistance,".

Sincerely,
