---

March 4, 2010

Mr. Daniel Smith  
Associate Administrator for Enforcement  
National Highway Traffic Safety Administration  
1200 New Jersey Ave. S.W.  
Washington, D.C. 20590

Dear Mr. Smith:

Reference: NHTSA Identification Number 10V-008

Enclosed is a representative copy of an Advanced Field Action Communication (AFAC) **J38030410** to dealers explaining an upcoming field action.

This completes Chrysler's package of information for this recall as required by the Defects Report Regulation.

Sincerely,

A handwritten signature in black ink, appearing to read 'David D. Dillon'.

David Dillon  
Vehicle Compliance and Safety Affairs

**Advanced Field Action Communication - J38030410**

Chrysler Group LLC (Chrysler) announced that the supplemental front airbag crash sensors in some 2005 and 2006 model year Dodge Caravan, Grand Caravan and Chrysler Town & Country vehicles may crack under certain conditions and allow water to enter into the sensor.

These sensors were added to enhance the performance of the vehicle's airbag system in a frontal crash. A cracked sensor may not operate properly in a frontal crash, but the primary crash sensor will still deploy the frontal airbags in crashes that require them.

A cracked sensor can also illuminate the airbag warning light. Should a vehicle (listed above) come in with the airbag warning light illuminated, please follow established diagnostic and repair procedures to correct the condition.

Chrysler will conduct a regional Customer Satisfaction Notification (CSN) to replace the supplemental front airbag sensors for vehicles that were originally sold to or are currently registered in 27 states (plus Washington D.C.) including NHTSA defined "salt belt" states (use of road salt in the winter).

Dealers will be notified of the launch of this CSN by way of established methods used in the past.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries on involved vehicles.
