Subject: Supplemental Information for Safety Recall 9LG
Potential Floor Mat Interference with Accelerator Pedal

Dear Dealer Principal:

The vehicle is covered by the Potential Floor Mat Interference with Accelerator Pedal Recall (Safety Recall 9LG)

Lexus is currently in the process of finalizing the recall remedy for some models. The customer will be notified by first class mail as soon as your dealership is prepared to perform the remedy on the vehicle. Once the customer receives this notification announcing the remedy is available, please request that they contact your dealership to schedule an appointment to have this important remedy performed. Please note that if the remedy has been launched for a particular model, the customer does not need the owner letter to have the remedy performed.

The following Lexus models are covered:

2007 - 2010 ES
2006 - 2010 IS

Please request that customers take out any removable driver's floor mat and NOT replace it with any other floor mat until the Safety Recall remedy is performed on the vehicle.

In the event a customer chooses not to take out any removable floor mat, Lexus strongly recommends that the customer ensure that the correct floor mat is being used, that it is properly installed and secured, that it is not flipped over with the bottom-side-up, and that one floor mat is not stacked over another. Please assist any customer that requests assistance in this verification.

In the meantime, please provide customers that are covered by this Safety Recall a copy of the Consumer Safety Advisory Letter as a reminder. Please fill in the model year and model before providing it to them.

Thank you for your assistance.

Please review this entire package with your Service and Parts staff to familiarize them with the proper step-by-step procedures required to implement this Safety Recall.

Thank you for your understanding and cooperation.
Lexus,
A Division of Toyota Motor Sales, USA, Inc

Lexus Carpeted or All-Weather Floor Mat Inspection, Application and Installation Instructions

Read these important Warnings **BEFORE** installing **ANY** type of Floor Mat.

A. General Floor Mat Warnings

- Only install floor mats designed specifically for that model and model year. Check for correct model name and part number on the packaging label to confirm vehicle application.
 - Never install a floor mat if you are uncertain of the model application.
 - Never install the floor mat upside down or turned over for any reason.
 - Only install the driver's floor mat in the driver's foot area.
- Always properly secure the driver's floor mat using the retaining hooks (clips) supplied in the bag with the floor mats (in the case of Lexus with the carpet floor mats). Follow the floor mat retention clip installation instruction supplied with the clips. If the mat is properly secured and you have confirmed vehicle applicability, it will not interfere with the accelerator pedal.
 - Never install the front driver's floor mat without all retaining hooks (clips) securing the mat firmly in place.
- The retaining hooks (clips) are designed to accommodate only one floor mat at a time.
 - Do not install another floor mat(s) on top of an existing driver's floor mat.
- After installation, always check the operation of the accelerator, brake and clutch (if applicable) pedals to assure the floor mat does not interfere with them.
- Carefully read the warning tag attached to the driver's floor mat regarding installation.

B. Floor Mat Inspection Instructions and Application Information

- Before placing a floor mat in a vehicle be familiar with the procedure outlined below.
 - Identify the correct driver's floor mat for the specific vehicle application.
 - Correctly install the driver's floor mat.
- Regularly verify the correct floor mat is securely installed in the appropriate model using the retaining hooks (clips).

NOTE: Use the attached Application Information Chart to verify mat-to-vehicle application.

Driver's floor mat part number is located on the bottom of the back side of the mat.

(Sample of Application Information Chart)
See Attachments for details specific to your vehicle.

PT908-33072-02	ES350	All Weather
PT908-33072-11	ES350	All Weather
PT908-33072-14	ES350	All Weather

The last 2 digits on the part number indicate the color code

1. Make sure the driver's floor mat is properly secured by the retaining hooks (clips). Confirm that the retaining hooks (clips) are secured into the grommet holes in the vehicle's floor (carpet).

Warning: Do not stack the floor mats in any vehicle. The retaining hooks (clips) are designed to accommodate only one floor mat at a time.

2. Check the following pedal operation (fully depress the pedal) to assure the floor mat does not interfere with it. Make sure the vehicle is turned off and in the "Park" position when testing:
 - Accelerator Pedal
 - Brake Pedal
 - Clutch Pedal (if equipped)
