

Safety Recall Notice

Safety Recall Notice

The following is information on how to review and address the concern for the Grote LED clearance lamps.

CONCERN: Replacement of Grote LED lamps that were produced by Grote in 2006 that may be on EIDorado National model years of 2006 through early 2008.

SOLUTION: Use the attached instructions provided by Grote to determine if the lamps should be replaced.

Instructions Attached: The pages attached are instructional information from Grote that help discern if the lamps on your bus are indeed a part of the recall and whether they should be replaced.

TOOLS:

No tools are required to remove the lamps to either inspect or replace.

Contact: Grote at 888-530-0137 Provide them with the Chassis VIN or EIDorado National body serial number, the number of lamps needed both Amber and Red. Grote may want the lamps back that are being removed and Grote will supply the necessary process information with the shipment of new lamps.

TIME ALLOWED: If the lamps do fall within the guidelines outlined by Grote the amount of time allowed to replace all the lamps is 1.2 hours per bus. Submit warranty labor through your local EIDorado National dealer for reimbursement.

Recommended: Inspection of the lamps on a daily basis should be a part of the routine maintenance of the vehicle.

This Safety recall is supplied as technical information and is direction how to address the concern outlined within. Please contact your nearest dealer to address this matter as promptly as possible.

Date: February 17, 2010

Subject: Grote Clearance Lamp
