RE: 2004 Endeavor Fuel Filler Pipe Recall
TIN NO. ATIN-10-SR-001

AFFECTED VEHICLES: 2004 Endeavor

PURPOSE

A safety recall campaign will be conducted **in July 2010** for 2004 Endeavor models for fuel filler pipe inspection and replacement. This recall campaign will be conducted only in U.S. salt-belt states, the adjoining states, cold weather states, and Canada. The affected 39 U.S. states are:

Alaska	Kansas	New Hampshire	South Dakota
Arkansas	Kentucky	New Jersey	Tennessee
Colorado	Maine	New York	Utah
Connecticut	Maryland	North Carolina	Vermont
Delaware	Massachusetts	North Dakota	Virginia
District of Columbia	Michigan	Ohio	Washington
Idaho	Minnesota	Oklahoma	West Virginia
Illinois	Missouri	Oregon	Wisconsin
Indiana	Montana	Pennsylvania	Wyoming
Iowa	Nebraska	Rhode Island	

Road debris (mud) mixed with road salt, can become trapped between a reinforcing bracket and the fuel filler pipe, potentially causing corrosion of the pipe. Over time, corrosion could create a leak in the fuel filler pipe, leading to a possible fuel leakage from the pipe during refueling.

Prior to the recall in July, if a customer experiences a problem due to corrosion with the fuel filler pipe on a 2004 Endeavor, dealers should replace the fuel filler pipe at no charge to the customer using the following criteria:

- 2004 Endeavors in Canada and the affected 39 U.S. states: Unlimited Mileage
- 2004 Endeavors in all other U.S. states: Under 150,000 miles
