 **THE BRAUN CORPORATION**
"Providing Access to the World"

Date: May 19th, 2010

To: All GM Entervan Dealers

Subject: NHTSA General Motors Rear Suspension Trailing Arm Recall: **Recall #: 10V-110**

I am writing to inform you that The Braun Corporation recently initiated a recall that concerns 2005-2008 GM Uplander, Montana, and Terraza rear trailing arm weldment. We will soon be notifying all vehicle owners we have record of, and that are affected by this recall, via U. S. Postal Service First Class Mail. The letter being sent to customers will contain the NHTSA required notification documents as well as information the recipient will need to know in order to have their vehicle inspected/repaired. In taking this action, The Braun Corporation is hoping to lessen the burden on our dealers in contacting the persons affected by this action.

We will be using a registration company to supply us with the name and address information for end users affected by this recall. However, you may be asked to research your company customer records for end user information in the event registration information cannot be found. If you are contacted by Braun to research customer records, please provide the end user mailing address information to Braun and we will be happy to mail this information directly to the owner of the vehicle.

Please remember it is a violation of Federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment covered by the notification under a sale or lease until the defect or noncompliance is remedied. In other words, if you have a GM Entervan vehicle affected by this recall in your possession, it must be inspected and if necessary repaired before you can sell the vehicle. Note: Any GM Entervan converted by Braun after May 8th, 2008 is not affected by this recall.

In taking this action, Braun continues to place the safety of our customers at the top of our priorities. We are also committed to support our dealer partners in their effort to service their customers. It is our hope that the steps outlined in this letter will serve to reaffirm that commitment and acknowledge the value we place in our working relationship. Should you have any questions with regard to the matters outlined above, feel free to contact The Braun Corporation's Product Support Department.

Rick Nelson, Director of Product Support

SAMPLE

Dear Valued Braun Customer:

The Braun Corporation is committed to keeping you informed of important information concerning the Braun product you purchased from an authorized Braun Mobility Dealer. Our emphasis on building the safest and most reliable products is likely among the reasons you have chosen Braun for your Mobility needs and we appreciate and value your business.

The attached recall notification is our way of keeping you safe and satisfied with your vehicle. We are asking you read and follow the instructions carefully. The inspection should be completed in less than 1 hour by one of our authorized mobility dealers. If after the inspection it is determined a retrofit is required, an additional 2 hours may apply.

We regret any inconvenience you may incur in answering this recall notification. Please know that The Braun Corporation will continue do our part to keep you safe and secure and will remain committed to standing by the mobility products we sell.

Best Regards,

Ralph W. Braun
Chief Executive Officer
The Braun Corporation

Braun Corporate Quality Policy:

Together, we will meet or exceed customer expectations. We pursue activities that lead to continual improvement through inspection, analysis and regular review throughout the organization of our quality objectives.

Vehicle Identification Number: XXXXXXXXXXXXXXXXXXXX
NHTSA Recall Identification Number: **10V-110**

Dear Entervan Owner,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

The Braun Corporation has decided that certain 2005-2008 General Motors mobility conversions may contain a defect which relates to motor vehicle safety. This defect may present itself with a squeaking noise, a rough ride, or degradation in vehicle control. As a result, passengers, pedestrians, or other motorists may be injured or killed.

Your vehicle, identified above, **is affected**. To correct this condition please take your vehicle to the mobility dealer from whom you purchased the vehicle. If this is not possible, please call 800-488-0359 and a Braun Customer Experience Representative will direct you to a Braun approved mobility dealer who can perform the required inspection, and repair as needed. An approved Braun Dealer service technician will perform the inspection and any additionally required action.

The inspection should take approximately 1 hour. However, additional time may be required depending on the outcome of the inspection.

Please contact your mobility dealer service center and schedule an appointment. Please bring this Owner Notification letter with you at the time of your appointment and give it to your mobility dealer. This form identifies the vehicle and the service that is required. Once again, an approved Braun service technician will perform the inspection and any additionally required action.

We regret any inconvenience this action may cause you. However, we are concerned about your safety. If your dealer fails or is unable to remedy this defect without charge and within a reasonable time, you may submit a written complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE, Washington, DC 20590, or call 1-888-327-4236.

Thank you for your attention to this matter.
