Subject: Owner Renotification of Non-Completed Safety Recalls and Service Campaigns

Safety Recall completion is important not only in satisfying government requirements but also is an integral part of our commitment to meet customer expectations of Toyota products. Toyota will be sending Safety Recall and Campaign Follow-Up Notices to remind owners whose vehicles have not yet had campaign repairs completed.

We request your assistance in completing the applicable campaign repairs as owners receive the follow-up notice and contact your dealership. Please note the follow-up activity may cause an increase in your current campaign owner appointments. Toyota will continue with additional follow-up activities in the months to come. Please take this into consideration when analyzing your manpower requirements.

**2. Safety Recall and Campaign Follow-Up Owner Notification Letter Mailing Date**

The Safety Recall and Campaign Follow-Up Owner Notification Letters ("owner letters") will begin approximately one week after the dealer notification. The owner letters will be mailed, by first class mail as required by Federal regulation, over a period of several weeks consistent with parts availability.

**3. Technical Instructions**

Technical Instructions to conduct these campaigns can be found on **TIS**.

**4. Number of Covered Vehicles**

***Dealer Reports will not contain a VIN list. However, they will contain the number of covered vehicles per dealership where applicable.*** These counts are based upon the dealership's Primary Marketing Area (PMA) or selling dealership where applicable. Based upon our records, a dealership which does not have a vehicle covered by this renotification in their PMA will receive a report indicating so.

**5. Parts Ordering**

The applicable parts ordering information can be found in the Dealer Cover Letter and Technical Instructions of the *specific* Safety Recall. As a practice, please utilize the following guidelines to determine your parts order for this renotification activity:

- Check current stock levels.
- Order parts ensuring that dealership stock levels do not exceed 5% of the notices being mailed in your dealership's PMA.
- Subsequent orders should be based on customer appointments.
- Replenishment orders of parts should be based on a "sell one, buy one" basis.

*All parts replaced for this Safety Recall are subject to Warranty Parts Recovery.*

**IMPORTANT PARTS ORDERING UPDATE**

*Effective January 1, 2012, All Future Safety Recall, Service Campaign (SSC/LSC) and Customer Support Program (CSP) parts will be eligible for the Monthly Parts Return Program. Please refer to PANT Bulletin 2011-087 for campaign parts that are currently returnable under the Monthly Parts Return Program and additional details.*

**6. Vehicles in Dealer Stock**

Dealerships are requested to perform recall campaign procedures on any vehicles in your stock prior to delivery. Always verify eligibility by consulting Dealer Daily/TIS prior to performing repairs.

**7. Customer Handling and Dealership Follow-Up**

Please consider this follow-up notice a great opportunity to focus on assuring customers that their safety remains Toyota's highest priority. Customers who receive the Safety Recall Follow-Up Notice may contact your dealership with questions regarding the letter and/or remedy. Please ensure that all customer contact personnel are aware of these Safety Recalls and know how to accurately answer customer's questions or how to direct the customer to someone that can. Please welcome them to your dealership and answer any questions that they may have.

Toyota encourages dealerships to follow-up with their customers by telephone to remind them of the non-completed Safety Recalls. The following word track has been provided for this purpose. To assure a consistent and accurate description of the Safety Recall is communicated to the customer, dealership associates are requested to refer to the specific Safety Recall Q&A (available in TIS) to answer any specific customer questions.
