Dear Skyline Dealer:

On November 24, 2010, Skyline contacted the National Highway Traffic Safety Administration to report a defect which relates to motor vehicle safety in its 2011 recreational vehicles manufactured between August 23, 2010 and September 28, 2010.

Specifically, certain 2011 recreational vehicles may have been equipped with defective wheels. There is poor weld quality in the rim of the wheels. The poor weld may cause the center of the wheel to separate from the rim.

SEPARATION OF THE WHEEL FROM THE RIM MAY RESULT IN A LOSS OF CONTROL OF THE VEHICLE. THIS CONDITION MAY CAUSE A CRASH AND/OR INJURY WITHOUT WARNING.

Skyline has determined that a total of 57 vehicles have the potential to have the affected wheels installed. However we cannot determine if a vehicle is affected without inspecting the wheels.

15" x 6" welded wheels manufactured by Xingmin Wheel ("Xingmin") bearing the rim stamp "07 10 06Z" or "08 10 16B" on the back-side of the wheel, in the rim. The subject wheels include the following part numbers:

**Part numbers: TF15X6655SS (silver spoke)
TF15X6655WM (white mod)
TF15X6655MS (silver mod)
TF15X6545WMS (white mod with stripe)
TF15X6655WS (white spoke with and without stripe)**

Skyline will contact all customers who purchased one of these recreational vehicles. Our records show that you received the following units and remain in your stock. Please inspect the wheels of each and document the part number and rim stamp on this sheet. Please return the completed sheet to Skyline via fax at 1-574-522-5257 or by US Postal service to the attention of Ronald Foster, Skyline Corporation, P.O. Box 743, Elkhart, IN 46515.

If you have a wheel with a part number listed above, contact Trans Texas Tire immediately toll-free at 1-800-289-8667. They will arrange to provide replacement parts and compensation.
