Alex:

Sorry that I could not reply sooner.

The parts Wanxiang supplies to Federal Mogul are specifically made to FM's requirement and validation approval process, Wanxiang is not allowed to sell such products with FM design to other customers according to the contract.

Wanxiang does sell many wheel hubs to aftermarket, so far we have not had any customer complain about the similar failure for any hub that we sold.

Please feel free to contact me if you have any further question.

Thank you.

Subject: Federal Mogul Safety Recall Inquiry

Mr. Pin Ni,

Good afternoon. Regarding Federal Mogul's recall for Wanxiang America wheel hub assemblies, did your company sell the same or similar defective wheel hubs to any other customer?

Please contact me with any questions.

Thank you,
