RE: Recall 10V648000 quarterly reports

Dear Ms. Schuler,

The above mentioned recall was being handled by Tredit Tire and Wheel and their wheel supplier. I understand that there has been correspondence on this issue with you from Amanda Walker. We were not kept in the loop on what was found, replaced or still outstanding. It seems that there was some issue between Tredit Tire and Wheel and the wheel company on the numbers of wheels outstanding. At this point I am not sure what to report.

We supplied Tredit tire and Wheel with a list of VIN numbers, dealer names and addresses and retail customer names and addresses as well as sending out our own notification of the recall to the dealers and retail customers instructing them to contact Tredit Tire and wheel as per their request.

As with other suppliers who wish to handle the recall with their customer service people, we expected to get copies of the recall quarterly reports that they sent to NHTSA so we could file our own. They were not forthcoming and our customer service department assumed that this issue was complete and could be closed.

This letter is sent along with the email correspondence I have been getting between Forest River, the wheel supplier and Tredit Tire and Wheel.

I am open to any suggestions you would have on how we go forward on this report.

Regards,

William G. Conway Jr.
