## **Safety Recall: Driver's Power Window Switch May Not Work**

Dear Fit Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

### **What is the reason for this notice?**

Honda Motor Co., Ltd. has decided that a defect which relates to motor vehicle safety exists in certain 2007-08 model year Fit vehicles. Under severe condition, water may enter the driver's window and reach the master power window switch resulting in impaired function of the switch. If the master power window switch is damaged as a result of the water intrusion it may result in failure of the switch and overheating. An overheating switch can cause smoke, melting and fire.

### **What should you do?**

Call any authorized Honda dealer and make an appointment to have your vehicle repaired. The dealer will inspect the switch and install a cover around the switch housing to prevent water from entering the switch. If the switch is damaged, the switch will be replaced and a cover will be installed. All work will be performed *free of charge*. Please plan to leave your vehicle for half a day to allow the dealer flexibility in scheduling.
