

**Safety Recall A0C – Certain Early Production 2010 Camry Vehicles Equipped with the 4 Cylinder Engine
Brake Tube Inspection
SAFETY RECALL NOTICE**

[VIN]

Dear Toyota Owner:

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Toyota has decided that a defect which relates to motor vehicle safety exists in certain early production 2010 model year Camry vehicles equipped with the 4 cylinder engine.

What is the Condition?

On certain early production 2010 model year Camry vehicles equipped with the 4 cylinder (2AR-FE) engine, a power steering pressure hose in the engine compartment may be the incorrect length. If this condition exists, a crimp on the power steering pressure hose may come in contact with a specific brake tube (“brake tube”).

Should this condition continue, a hole may wear in the brake tube and deplete the brake fluid in the vehicle. In the worst case, the brake pedal stroke will increase and lead to greater vehicle stopping distance, which may increase the risk of a crash.

What will Toyota do?

Any Toyota dealer will inspect and if necessary adjust the space between the brake tube and the power steering pressure hose crimp. Based upon the inspection results, the dealership may need to replace the brake tube. The inspection/adjustment and, if necessary, the brake tube replacement, will be performed at **NO CHARGE** to you.

What should you do?

This is an important Safety Recall

Please contact your authorized Toyota dealer to make an appointment to get your vehicle inspected as soon as possible. Most vehicles will only require an inspection which will take approximately 45 minutes. However, depending upon the dealer’s work schedule and the inspection results, it may be necessary to make your vehicle available for a longer period of time.

If replacement of the brake tube becomes necessary, your dealership will need to order the parts specific to your vehicle. As these parts are not normally stocked by dealerships, it will take a few days for the dealer to receive them. The Toyota dealer will make every effort to assure your utmost convenience during this waiting period.

We request that you present this notice to the dealer at the time of your service appointment.

If you would like to update your vehicle ownership or contact information, please go to www.toyota.com/ownersupdate. You will need your full 17-digit Vehicle Identification Number (VIN) to input the new information.

What if you have other questions?

Your local Toyota dealer will be more than happy to answer any of your questions and set up an appointment to perform this important Safety Recall. If you require further assistance, you may contact the Toyota Customer Experience Center at 1-888-270-9371 Monday through Friday, 5:00 am to 6:00 pm, Saturday 7:00 am through 4:00 pm Pacific Time.

If you believe that the dealer or Toyota has failed or is unable to remedy the defect within a reasonable time, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue S.E., Washington, DC 20590 or call the toll free Vehicle Safety Hot Line at 1-888-327-4236 (TTY: 1-800-424-9153), or go to <http://www.safercar.gov>.

If you are a vehicle lessor, Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the vehicle lessee within ten days.

We have sent this notice in the interest of your continued satisfaction with our products, and we sincerely regret any inconvenience this condition may have caused you.

Thank you for driving a Toyota.

Sincerely,

TOYOTA MOTOR SALES, U.S.A., INC.
