AFFECTED VEHICLES
MODEL: 2010 Galant

Date: March, 2010

Dear Mitsubishi Owner,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Reason For Notice: Mitsubishi Motor Sales of America, Inc. has determined that a defect which relates to motor vehicle safety exists in certain 2010 Galant vehicles. The automatic transmission oil cooler pipe assembly on some vehicles may have insufficient plating to prevent corrosion. If the pipe should develop a hole due to corrosion, ATF leakage may occur. ATF in the presence of an ignition source may result in a potential fire hazard.

Call Your Dealer: Please contact your Authorized Mitsubishi Motors Dealer immediately to schedule an appointment for the dealer to have the A/T oil cooler pipe assembly inspected. If insufficient plating is found during inspection, the dealer will replace the A/T oil cooler pipe assembly with new parts containing appropriate anti-corrosion plating. There will be no charge for this service.

How Long Will It Take? The inspection will require approximately 30 minutes to complete. If the oil cooler pipe assembly requires replacement, the repair will take about one hour. The dealer may need your vehicle for a longer period of time due to service scheduling issues, but every effort will be made to minimize your inconvenience.

If you experience any problem having your vehicle repaired promptly and/or at no charge, please inform us by calling the Mitsubishi Customer Relations Department at 888-648-7820. Hours: Monday through Friday 7 a.m. to 4 p.m. (Pacific Time)
