Notification of Safety Recall M0150

To Our Valued Customer,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

REASON FOR THIS RECALL

Hino Motors Sales U.S.A., Inc. has decided that a defect, which relates to motor vehicle safety, exists in certain USA production of certain 2009 and 2010 model year vehicles produced between August 18, 2008 and July 27, 2009. The defect involves the u-joint attachment bolts, which may not have been properly tightened during the manufacturing process. If the bolts were to loosen it could cause a vibration in the driveline. If this vibration were ignored, the U-joint attachment bolts could shear and a portion of the propeller shaft could separate from the vehicle, thus falling onto the surface of the roadway. If this fallen portion of the propeller shaft is struck by a vehicle, it could ultimately result in a crash.

WHAT WE WILL DO

Hino Motors Sales U.S.A., Inc. will replace the propeller shaft straps, strap bolts, and apply the correct torque to the replacement propeller shaft strap bolts. These recall repairs will be performed free of charge.

WHAT YOU SHOULD DO

Please contact your Hino Dealer as soon as possible to arrange a service date. Instructions for making this correction have been sent to your dealer. The labor time necessary to perform this service correction is approximately 60 minutes.
