OWNER NOTIFICATION

Dear Infiniti G35 Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Infiniti has decided that a defect which relates to motor vehicle safety exists in some 2005 model year G35 sedan and 2005 model year G35 coupe vehicles. Our records indicate that you own or lease the Infiniti vehicle identified by the VIN on the cover of this notice.

Reason for Recall

On some of the potentially affected vehicles, the passenger air bag harness connector under the front passenger seat can develop additional electrical resistance due to wear caused by movement within the connector. This resistance could cause the passenger air bag in your vehicle to deactivate. If this occurs, the **RED** air bag warning light will illuminate and the amber front passenger air bag status lamp will illuminate to alert you that the passenger air bag is not operating. If this condition is ignored, it could result in the passenger air bag not inflating in a crash, potentially increasing the front passenger's risk of injury.

What Infiniti Will Do

Your Infiniti dealer will repair the passenger air bag harness located under the seat.

In addition to this corrective remedy, to assure your continued satisfaction and confidence in your G35, your dealer will relocate and secure the connector for the seat-mounted side air bags in your vehicle. The purpose for doing this enhancement is to help ensure that the seat-mounted side air bags in your vehicles continue to operate properly.

This free service should take about 3 hours to complete, but your Infiniti dealer may require your vehicle for a longer period of time based upon their work schedule.

What You Should Do

Contact your Infiniti dealer at your earliest convenience in order to arrange an appointment to have your vehicle repaired.

NOTE:

- If a **RED** air bag warning light located in your instrument cluster illuminates together with the **YELLOW** "Pass Air Bag Off" status light (located in the center display next to the clock) and stays on for longer than a few seconds, the passenger airbag in your vehicle will not operate. If this happens, you should take your car to an Infiniti dealer for repair as soon as possible, and you should not let anyone ride in the front passenger seat until the dealer has repaired your vehicle.
- If a **YELLOW** "Pass Air Bag Off" status light (located in the center display next to the clock) illuminates, but the **RED** air bag warning light does not, this is normal and does not mean that the passenger air bag is malfunctioning (see your Owners Manual). However, you should still bring your vehicle for repair at your earliest convenience.

Please bring this notice with you when you keep your service appointment. Instructions have been sent to your Infiniti dealer.

If you have previously paid to have your passenger air bag harness repaired prior to this campaign, you may be eligible for reimbursement of the related expense. Please contact the National Consumer Affairs Department, Infiniti Division, Nissan North America, Inc., P.O. Box 685003, Franklin, TN 37068-5003. The toll free number is 1-800-662-6200. You may also contact the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE., Washington, DC 20590; or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.

Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

Thank you for your cooperation. We are indeed sorry for any inconvenience this may cause you.
